"The Four Feathers"

**With Richard Arlen, Fay Wray, Olive Brook,
William Powell and Noah Beery.**

**"Call me a coward, would they?" "I'll make
them eat their words!"**

One by one his three comrades in arms, and then his sweet-heart, give him a white feather, symbol that he is "yellow."

But Harry Faversham comes back! He shows them that he is the bravest of the brave!

Into the lawless Sudan he journeys, into the maw of wild adventure. Facing the terrifying perils of the jungles and desert he proves the stuff he is made of.

One by one he makes them take back their white feathers after the most courageous series of battles with wild beasts and wilder savages the screen has ever known.

Remember:

When you get through eating this high flavored Moose Meat, we are still in business with a full stock of

Local Beef, Pork, Veal and Lamb.

Meat that will take the wild taste out of your mouth and settle your stomachs again.

Champion Meat Market

Champion Hunters Death on Moose

With the arrival home of the shooting party consisting of E. B. Siler, Otto Hagg, W. S. Ryan, J. Fred Scott, Peter Holm and A. W. Jopling, the town has been so full of moose heads and moose meat that any one with the proper amount of imagination would easily consider themselves transported to the back woods. The party accounted for six bull moose and one buck deer, and the horns of one moose secured by E. B. Siler were considered the finest that ever came from the north woods, and some of the lesser horns were worthy of extensive notice. The party hunted some 100 miles west of Edmonton and report having had an excellent time as well as exceptional shooting. Many stay at homes were eating moose meat on Tuesday and Wednesday as a result of this hunting trip.

A party consisting of Oscar Tom and Martin Sletto and Fred Gottenburg, shooting west of Edmonton, returned with their bag limit of moose on Saturday night. Their experience was of the delightful character in every way, the whole trip being highly enjoyable and the results sufficiently satisfactory in the way of game to be beyond reproach. Naturally moose is plentiful in the vicinity of their home.

A. Ruggles, E. Root, and Mr. and Mrs. Royal Ruggles made up another shooting party for the woods west of Edmonton. Mr. Ruggles had the misfortune to drive on a stump with his car, suffering a broken rib through the accident. He was accompanied home by E. Root. Mr. and Mrs. R. Ruggles remaining at the hunting grounds. This party also secured a very satisfactory amount of game.

Not So Smooth At Coleman

Coleman, November 11.—Two youths charged with placing an obstruction on the highway on Halloween have been ordered bound over to keep the peace for six months and to pay the costs of the court. Three juveniles included in the offence were each fined \$5.00. S. G. Bannan, barrister, appeared for the defence. The parents of the boys undertook to pay costs of the damage to the car owned by Harry Cady, which with six other persons riding in it, was overturned in striking the obstruction, consisting of a railway tie and a log.

The Ladies' Aid held their anniversary supper on Monday evening which was given full justice by the large assembly of people from town and the surrounding district. The roast chicken and the splendid variety of other good things was enjoyed by all.

Two turkeys were stolen from A. Versluis' farm on Friday night, Nov. 7th. The parties are known and may save trouble by settling for same before proceedings are taken.

Winter has taken a real hold since Monday and by present appearances the present weather or will last for several days.

High School Notes

The entire staff of teachers attended convention this year. Mr. Baker and Miss Melrose attended the high school convention at Calgary. The public school teachers attended Mr. Sullivan's public school convention at High River. The holiday seemed much appreciated by the students.

The students of the Champion school assembled on November 11 to perform the usual ceremony in commemoration of those who sacrificed their lives for their country during the great war. Mr. Baker gave an interesting address on the danger of war to civilization. He told the class of the many poisonous gases which if permitted to escape through the world would kill everyone. "War kills friends as well as enemies," he pointed out. "Nobody wins a war. National debts are heavy and hinder the progress of the world. Peace must be kept for the upkeep of civilization."

LOST—Between Carmangay and F. Caldwell's a blue leather purse containing a good watch with F.T.B. initials. Finder please leave at Campbell's and receive liberal reward.—Mrs. J. Walker Carmangay.

Donations for the fish pond and mystery table for the bazaar will be received by Mrs. Bond and Mrs. Moffin. Mrs. Orr and Mrs. Starr will take care of items for the home produce table. Contributions, how ever small, are solicited for these tables.

Among the Thanksgiving visitors in town were the Misses Rheta Campbell, Edna Orr, Catherine Watkins, Ella Stephenson, Aileen McCullough and Helen Farmer; also Don Stephenson and Donald Bond.

K. R. McLean, R.O., of McLean & Anderson, Sight Specialist 208-8th Ave West, Calgary will make his monthly visit to Champion Friday, Nov. 21st, at the Drug Store.

Russell Gustator returned from a trip to the Peace River country on Tuesday. He returned with the opinion that the north country has a long way to go before it is as good as this part of Alberta.

Check up made since the wife of Mayor William Hale Thompson, Chicago, was robbed of her jewelry, indicates that King George has a water-tight alibi. Ohio State Journal.

A man usually enters a public house optimistically, comments a reformer. And comes out misty optically.—Passing Show London.

J. D. Henderson attended the Armistice ball at Lethbridge. The tempo was exceptionally large and an unusually good time was enjoyed.

J. M. Moffatt played at Nanton and Carmangay with the Len Davis orchestra during the week.

Present weather conditions continued will assure curling ice in a short time.

Thrill! Adventure! Romance! Action! See them all in the world's supreme sensation film—two years in making—Alberta's wildest jungles—"The Four Feathers."

Marketing Grain Through Livestock Production Will Solve Problem Of Western Farmer

Whether to sell grain through livestock or for cash has been a question much discussed in the past. The question of the effect of cost of production on the sale of grain for cash has now been pretty well settled. What about selling through livestock? Particularly attractive features about selling grain for cash have been the relatively low amount of labor and skill involved and the rapidity with which the cash could be secured. But this latter advantage has disappeared and now it is a question of whether we shall do the work and learn the skill.

Attaining skill costs money, but it should not be charged into costs of producing, says Hogg. It is an investment which will always return big interest. It is largely a matter of will and intelligence.

Many farmers can feed considerable numbers of livestock without increasing the amount of money ac-

cost of hogs should not exceed 500 lb. to each 100 lb. of hog produced. Under reasonably good management the quantity should not exceed 450 lb. Where, as in the East, milk supplements are available, 100 pounds of hog can be produced by many farmers with the equal, including the milk, of 400 lb. of grain, while some men with very good breeding stock and skilful feeding are using even less. This is where one (but only one) of the big features of cost of production comes in. Such results are the reward of a steady policy persistently carried out over the years.

The farmer who has steadily added to his equipment and skill is this year not worrying about the low price of grains. Rather he is benefiting by it. Even in the years of the highest priced grains he still has averaged a fair return over grain prices. Sometimes it is necessary to feed hogs to get returns that do not exceed the cash.

Grain Values When Fed to Hogs

The table below shows the value of a bushel of wheat, barley, oats and corn when fed to hogs at the rate of 100 lb. of 450 lb. and 575 lb. per bushel. The value of a bushel of grain when fed to hogs ranges from \$10 to \$5 per 100 lb. For instance, in the first line of the table it will be seen that when hogs are selling at \$10 per 100 lb., wheat fed at the rate of 100 lb. of 450 lb. per bushel has a resultant value to the farmer of \$1.20 a bushel, barley a value of 90 cents, and oats a value of 75 cents. The table shows a sort of conversion table or ready reckoner of values and are to be used in this manner.

When 100 lb. of Feed are used to produce 100 lb. of Hog.

Hogs	Wheat	Barley	Oats
\$10	1.20	.90	.75
8	1.08	.81	.67
6	.84	.68	.51
4	.56	.45	.34
2	.28	.23	.17

When 450 lb. of Feed are used to produce 100 lb. of Hog.

Hogs	Wheat	Barley	Oats
\$10	1.35	1.08	.90
8	1.26	1.00	.81
6	.94	.72	.59
4	.63	.48	.39
2	.31	.24	.20

When 575 lb. of Feed are used to produce 100 lb. of Hog.

Hogs	Wheat	Barley	Oats
\$10	1.50	1.12	.94
8	1.35	1.00	.81
6	1.04	.76	.60
4	.69	.51	.40
2	.34	.25	.20

When 375 lb. of Feed are used to produce 100 lb. of Hog.

Hogs	Wheat	Barley	Oats
\$10	1.40	1.08	.90
8	1.26	1.00	.81
6	1.04	.76	.60
4	.69	.51	.40
2	.34	.25	.20

usually paid out for labor. The others must choose whether they will utilize a part of their labor in making the bushels of grain that they raise produce a better average income than they can get for them when cashed in as grain. Much of the idle time of farmers, especially in winter, can be put to proper management, be well utilized in feeding livestock.

In the accompanying tables is given the value of a bushel of grain when fed to hogs. A range of prices for hogs is given and a range of quantities fed to produce a hundred pounds of pork. Two things stand out in these tables. The one is that at a price as low as \$6.00 per 100 lb. for hogs, which is lower than prices have been for many years, barley, oats and the poorer grades of Western wheat will still yield very good values indeed per bushel. The other outstanding feature is that skill and management can largely increase the price per bushel received for grain when it is sold through livestock.

Under the best conditions the feed

values of feed grains, but one thing that should sink into the minds of every person interested in the livestock industry is the utter foolishness of reducing breeding stock because of a temporary condition.

It will be understood that while the accompanying tables give the feeding value of the stock-raiser's grain, and barley separately it is, of course, advised to feed them mixed one with the other. A good ration for growing pigs would be equal weights of wheat, oats, and barley, and, for finishing, a bushel each of the same grains. Any one of the grains fed alone would have its maximum value. Furthermore, the tables are not intended to be absolute, but are indicative of the values that may be obtained from grain when fed to hogs. In view of the price levels to which grain has been reduced they are particularly suggestive of the wisdom of a policy that includes in its programme the steady, persistent maintenance of a moderate production of livestock over every grain farm.

B.C. Apples Win Cup

Finest All-Round Exhibit At Imperial Fruit Show

High honors in the Imperial Fruit Show in London, England, were won by British Columbia apples exhibited by the Associated Growers of the Okanagan Valley in competition with fruit from all other Canada, according to cable advices received by the B.C. Department of Agriculture.

The British Columbia fruit was awarded the cup presented by the agent-general of all Canadian provinces in London, England, for the finest all-round exhibit. This trophy was won by Nova Scotia last year. The award is based on the total marks received by all classes of fruit shown by any exhibitor.

Revenue Dollar Cost

Larger Capital Investment Needed To Farm In Western Canada Than In the East

In the East The Bureau of Statistics at Ottawa provides some interesting information with respect to the amount of capital investment in land, buildings, equipment and livestock it takes to earn a dollar of production revenue in Canada. Using the figures provided by the Bureau's estimates with respect to last year we find the investment cost of producing the revenue dollar by provinces was:

Prince Edward Island	\$3.48
Nova Scotia	3.37
New Brunswick	4.50
Quebec	4.55
Ontario	4.47
Manitoba	5.56
Saskatchewan	4.80
Alberta	4.80
British Columbia	4.84
Domestic Average	4.78

It requires a large capital investment to farm in Western Canada than in the East—Dominion Department of Agriculture.

World's Nine Million Blind

Lewis H. Carr, of New York, managing director of the National Society for the Prevention of Blindness, in an address told the International Association that the world's blind population, numbering between 3,000,000 and 6,000,000, probably should be reduced to half that number within a generation by intensive scientific effort. The international body met in the Academy Palace with the president, Prof. de la Peronne of Paris, presiding.

Largest Turkey Ranch

Alberta Farm Woman Makes \$10,000 This Year In Raising Turkeys

Nine years ago, Mrs. W. A. Freeman, of Ardmore, Alberta, a native of Wisconsin, U.S.A., won a pair of bronze turkeys in a raffle. She now has the largest turkey ranch in Canada and is the acknowledged queen of turkey raising in the Dominion. Her turkeys will return a revenue of \$10,000 this year.

The winning of the pair of turkeys in the raffle suggested to Mrs. Freeman the idea of raising turkeys as a side line. She applied to the Canadian Federal and Alberta Departments of Agriculture for literature on raising poultry, turkeys in particular. Her husband, a farmer, encouraged her to experiment in the business. She studied the literature carefully and followed the advice given. Her ranch is now famous. She receives letters from all parts of the North American continent and to other countries.

This year she has raised 2,500 birds. Three hundred hens, all government inspected, have supplied the demand for eggs in 1930 and 45 of the most perfect have been selected for first-class breeding stock. A revenue of \$2,500 has already been realized this year from the sale of eggs, and \$2,000 from the breeding stock. The receipts from the sale of the birds after Thanksgiving and Christmas are expected to bring this year's total up to \$10,000.

The Freeman farm on which the turkeys are raised has a creek running through it, which supplies a constant and plentiful supply of good water, an essential for successful turkey raising. The soil is sandy, which assures good drainage. Most of the chicks are hatched in incubators. After hatching the chicks are sheltered for about 10 days in large coops and then allowed to roam. The main flock is kept on about 200 acres of land, fenced in. Scrupulous attention is paid to the cleanliness of the sheds, roosts, etc., which are sprayed with kerosene oil from time to time, to destroy lice, lice, etc.

Mrs. Freeman believes that any woman on the farm prepared to give the necessary care and attention can meet with an equal measure of success in the business. Next year she expects to raise 5,000 birds for eating and her total revenue will likely be about \$15,000.

Livestock Industry Developed

Saskatchewan Farmers Avail Themselves Of Stock Feeder Plans

Considerably more than 1,000 head of steers already have been placed under the stock-feeder scheme instituted by the Saskatchewan Government of the beef-dairying industry in Saskatchewan during the short period the scheme has been in operation. Announcement to this effect has been made by Hon. W. C. Buckle, Minister of Agriculture. In making the announcement, Hon. Mr. Buckle stated that 40 Saskatchewan farmers already had availed themselves of the new option under the Livestock Purchase and Sale Act, the total amount involved, including freight charges, being \$7,331.

Dry Wood

Dry wood will neither stand nor burn, but it again is being put to use in the form of charcoal.

It is believed that the reign of Papi II of the sixth Egyptian dynasty is the longest on record. He ruled for 91 years.

(By Annetto)

907

SCHOOL GIRL SMARTNESS EXPRESSED IN NEW DRESSY WOOLLEN WITH BECOMING FLARE

It's one of the most effective interpretations of the season in Paton's dark, green, crepe woolen in shadow check pattern. A narrow belt with green enamel buckle places emphasis on the natural waistline.

The scalloped neckline is smart, agreeing with the scalloped line of the shoulder yoke. The skirt is circular with just enough fulness to make it gracefully comfortable for school days.

Style No. 907 is designed for the miss of 8, 10, 12 and 14 years. Brown and white weeds of light-weight texture is very fashionable in a tiny checked pattern.

Wool challis prints, wool jersey, rayon novelties, covert cloth, linen, cotton broadcloth prints and dress-like cottons are very smart for classroom and study as well.

Size 8 requires 2 1/2 yards 38-inch. Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your full name and address, the number of the pattern and the size you want.

Manitoba University

The University of Manitoba, at present situated in the heart of Winnipeg, is to move to the outskirts of the city on the site of the Manitoba Agricultural College, the miles south of Winnipeg. Work has begun on the erection of a new art building to cost over \$410,000. The agricultural college buildings are an imposing pile, representing an expenditure of \$4,000,000.

CANADIAN HOTELS ASSOCIATION

Provincial directors and officials of the Canadian Hotels Association photographed at the Royal Alexandra Hotel following an annual meeting at which representatives from all parts of the Dominion were in attendance. From left to right they are: H. C. Brown, Charlottetown; C. A. Tanner, managing director and secretary-treasurer of the Saskatchewan Association; Mayor Ralph Webb of Winnipeg, who founded the Canadian Hotels Association; George Skinner, Winnipeg; Manitoba director; B. R. Sweeney, New Brunswick director; and A. Manley, Vancouver, British Columbia director. Inset is B. A. Neale, manager of the Royal York Hotel, Toronto, who was appointed president of the association for the coming season.

Fifth Biennial Conference Of British Empire Service League To Be Held In Canada In 1931

Growth Of Prairie Provinces

Alberta and Saskatchewan Have Made Great Strides Since Provinces Were Created In 1905

It is just 25 years since the provinces of Alberta and Saskatchewan were created. At that time the population of Alberta was 185,000. It is now about 450,000. Saskatchewan in 1905 had a population of 105,000; now it is about 867,000. The total area under cultivation in Alberta 25 years ago was 600,000 acres; in Saskatchewan 2,000,000 acres. In 1930 Alberta had 15,000,000 upper crop, and Saskatchewan 30,000,000 acres. The dairy production of Alberta has advanced in value from \$2,000,000 in 1905 to over \$20,000,000 this year. Similar progress in dairying has been made in Saskatchewan.

Progress has been equally as notable in a number of other directions in each of the two provinces. In 1905 there was comparatively no manufacturing in either Alberta or Saskatchewan. Now the value of the annual industrial output is over \$150,000,000 of which Alberta accounts for \$100,000,000 and Saskatchewan \$50,000,000. Each of the two provinces has a well equipped university, several high schools and many hundreds of public schools. From more frontier towns of 25 years ago, Calgary, Edmonton, Lethbridge, Medicine Hat, Regina, Saskatoon, Moose Jaw and other places have grown into well established and beautiful cities, with every advantage found in any of the older cities of the new or old world.

These two provinces, the youngest of the nine that form the Dominion of Canada, have certainly acquitted themselves well since their admission into the family group a brief 25 years ago.

South African Wheat Pool

Formed With The Object Of Organizing The Wheat Industry

A wheat pool for South Africa has been established with headquarters in Capetown according to advice received by the Department of Trade and Commerce, Ottawa. The new wheat pool was organized as a result of a meeting in Pretoria recently of representatives of the Transvaal Free State, Eastern Province and Western Province.

The organization will be registered under the Co-operative act, and is the culmination of deliberations of a committee appointed at the farmers' conference in January, with the object of organizing the wheat industry. The object of the scheme is to stabilize prices, so that ultimately South Africa will produce sufficient wheat to meet its own demands. Millers of the country are reported to be in unanimous agreement with the project. The price paid for wheat will be according to grade, calculated more or less on value of Australian wheat, and price then established towards December in accordance with ruling world prices.

It is considered, according to the report received, that there will be no danger that the stabilization of the price of wheat will affect the price of bread. It requires at least eight shillings a bag for wheat before the price of bread will be increased and this is not considered likely to occur.

Representatives of all the returned soldier organizations of the Empire will meet in Canada next August, when the fifth biennial conference of the British Empire Service League will be held. It was announced at Ottawa, by Lieut.-Col. L. H. LaFleche, Dominion president of the Canadian Legion.

Led by Earl Jellicoe, admiral of the fleet and presiding officer of the league, delegates will come from the British Isles, South Africa, Australia, New Zealand, and from every corner of the far-flung Empire.

In making the announcement, Col. LaFleche said the only definite plan was that the meetings would be held at such a time and in such cities as to permit the largest delegation taking part in the Warrior Day celebration of the Canadian National Exhibition at Toronto.

When the last biennial conference of the British Empire Service League was held in London, England, in 1920, Canada sought the next gathering. There was competition for this honor from other Dominions and a decision was withheld. Col. LaFleche has now received a telegram announcing Canada's invitation had been accepted. Earl Jellicoe presided at the meeting in London, England, which made the decision.

At the London conference 23 countries in the Empire were represented and it is expected there will be at least that number that will send delegates to next year's gathering. The British Empire Service League is an organization of returned veterans, branches of which are in every part of the Empire. The Canadian branch goes under the name of the Canadian Legion. The conference will be the largest gathering of returned soldiers ever held in Canada.

Definite arrangements for the event will not be announced for some time. Col. LaFleche said, however, that tentative plans were made when the invitation was extended in 1929, but they now will have to be changed in some respects because of intervening events.

How Time Is Spent

Frenchman Has Been Investigating and Gives Some Interesting Figures

A Frenchman with a liking for curious figures has been counting up the time that a man ordinarily devotes to common occupations of life. He finds that a man of seventy has usually spent about nineteen years working, twenty-three years in bed, nine years amusing himself or being amused, one year in church, and two years shaving himself. This last portion of time he seems to consider as one of the great wastes of life. But trying to imagine what we should look like if we all had heard we are not inclined to agree with him. Even if we did all save some time from shaving, there isn't any real guarantee that we would put that time to any better use.

A Great Bird Lover

The Duke of Rutland does not take so prominent a part in public life as some of his predecessors in the title, but he is keenly interested in agriculture and an ardent nature-lover, who cannot bear to see wild creatures—especially birds—in danger. Once when abroad he found in a market place a big consignment of caged larks for sale. He bought the lot—about 500—and had them set free.

New Air Mail Service

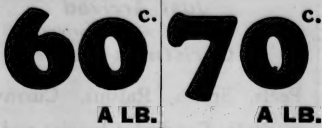

Announcement was made by the postmaster-general of the inauguration of a regular air mail service between Peace River and North Vermilion, Alberta. The route will via Carleton Place and Vermilion. No definite date for the first flight was made, but it will take place early in December.

"Mamma, this sovereign is bad." "Bad? Impossible!" Boy: "But, mamma, I told you that I would not get rid of you money at this shop."—Buen Humor, Madrid.

What Have You Learned About Life?

A world-wide organization of men recently conducted a contest, requesting letters on the subject: "What Have I Learned About Life?" Numerous replies were received, and the writer of this column feels that he cannot do better this week than pass on one of the prize winning essays. It is brief, and to the point, and reads:

"I used to drive my father's car on the country roads. While bouncing along over the rough ruts on the right side, the left part of the road always appeared more inviting; but once on that side I inevitably found it just as rough or worse."

This is the first lesson I have learned about the roadway of life. The other side is deceiving. The boys to be a man, and the old man glorifies in the golden days of his youth. The poor yearns to be rich, while a larger income consistently calls for more expense. But the successes and gains of life are not in the future or the past, nor in the other man's back yard. They lie within our own reach at the present time and in the present conditions. Life has lined us up for an even start.

The second thing I have learned about life is that God hasn't finished the job. We rejoice in the accomplishments of science, religion and social relationships, but yet in the crowded ways of life we find vile strife, unbrotherliness, political corruption and the curse of a maladjusted industrial order. Civilization is in its infancy, and its growth will depend on us of the present generation. There are still new worlds for men to conquer.

It doesn't take long for one to learn that there is no getting by in the long run of life. Being born into the world with this or that fortune or personality does not guarantee that one shall have a sturdy character and a personality that shines like the morning sun. Regardless of where a man starts in life those things of lasting value, education, religion, business power, a strong and virile physique and a happy home life are obtained only by long hours of patient and arduous toil and self-discipline which alone are the harbingers of a radiant and masterful personality. There are no sales and change accounts in the market places of life. The price of the best is constant.

Finally I have learned that there is enough happiness in life to go around. No man is cut off from his heritage of happiness even though it be interspersed with hardships and sorrows. To be able to see the vision of life's task in spite of the cramped quarters of a small job; to find outlet of soul and character in stooping to help a brother while persecuted by others; to rejoice in the exaltation of personality while crushed in the wheels of industrialism; and to be happy in a great and thrilling quest with the fresh dawn of each immortal day—this is the major lesson of life.

Shipping Asbestos To Japan

About Eighty Per Cent. Used Is Produced in Canada

"The market in Japan for asbestos in lump, powder and fibre, as well as in packing and other forms is increasing year by year owing to the expansion of industrial plants using this material and to the great variety of uses to which asbestos products are being put in everyday life," according to James A. Langley, commercial secretary to the Canadian Legation at Tokyo, Japan, in an article in the October issue of the Commercial Intelligence Journal.

About 80 per cent. of the asbestos used in Japan comes directly from Canada, a small percentage from Russia and the balance through one or two English concerns interested

in the African asbestos deposits. The demand for asbestos powder, the most valuable, has risen to about 12,000 tons.

Will Teach First Aid

Art To Be Taught At Balfour Technical School in Regina

The art of first aid is to be taught in specially established classes at Balfour Technical School in Regina. The school is co-operating in this work with the St. John Ambulance Association and a statement issued at Ottawa by the association said the new departure illustrated the increased recognition being given the necessity for knowledge of first aid in industry.

The step is being taken by Balfour school with a view to enabling employers in Saskatchewan to comply with the regulations of the Workmen's Compensation Board which requires that employers having 25 or more persons on their pay rolls maintain a first aid room in charge of a competent student of the art.

Making Trial Shipment Of Western Cattle

Prominent Ranchers Send High Class Animals To Old Country

Jack Byers, Sr., livestock promoter, attached to the Dominion Department of Agriculture, has taken a trainload of range steers, two, three and four years old which were contributed by a number of prominent ranchers of Saskatchewan and Alberta, as a trial shipment of high-class cattle to the Old Country market.

The shipment is being supervised by the Federal Department of Agriculture from leading to market. Mr. Byers sailed from Montreal to Manchester on October 30.

Veteran Government Worker

Walter Todd Has Served in Civil Service For More Than Half a Century

Walter Todd, for more than half a century clerk of committees and private bills for the House of Commons, died at Ottawa recently in his 74th year. His illness had been of brief duration.

The 57 years Mr. Todd spent as a government worker made him, in point of continuous service, one of the oldest members of the civil service. He succeeded his father to the position of clerk of committees in 1874.

In addition to the coincidence that father and son gave many years to the same post in the service of their country, one other peculiar incident stood out similarly in both their lives. In 1848 when the Parliament buildings, then situated in Montreal, were fired by an angry mob during the agitation which followed introduction of the Rebellion Losses' Bill, Mr. Todd's father cut the same portrait of Queen Victoria from its frame while the structure about him was in flames.

In 1916 when the Parliament buildings at Ottawa again went up in flames, Walter Todd cut the same portrait of her late majesty from its frame and once again the canvas was saved by a Todd.

Newspaper Convention

Provincial Meeting In R.C. Of Journalists On Daily and Weekly Publications

A provincial convention of the men and women who are engaged in the editorial departments of the daily and weekly press of British Columbia, the first of its kind in Canada, is planned for a late week-end in February. Preliminary arrangements having been made at a meeting of the provincial executive committee of the B.C. Institute of Journalists, held in Vancouver.

The convention will coincide with the annual dinner of the Vancouver branch, which will act as host to the out of town members who are expected to assemble from all parts of the province.

Woman's Fortitude

Forces Herself To Smile Through Pain

"I never seem to find time to rest," says many an overworked housewife. Under smiles and forced cheerfulness she conceals a nervous, nervous depression; headaches and backaches. Often she is in real pain, but still refuses to give up. This very fortitude is the cause of the pain. If she continues to neglect the signals of distress she will sooner or later suffer a serious breakdown.

A noted doctor has stated that nine-tenths of the life of women is due to poor blood. That anaemia is the cause of the low spirits, poor appetite and palpitation that make life a burden for so many.

There is a need, however, for women to suffer in this way. All the scientific and domestic handbooks by taking Dr. Williams' Pink Pills. These pills create an abnormally new, rich, red blood and this new blood will bring strength and vitality to nervous, overworked women. The Pills are sold by all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Industry May Develop

Horse meat has never been considered a delicacy among Canadians, but frequent inquiries have come from Europe as to Canada's ability to provide such food. Already a temporary abattoir has been provided in Calgary. If the demand, which comes from Rotterdam, continues it is expected that permanent plants will be built and an effort made to completely supply it.

To safeguard the child from damage that worms cause, says Miller's Worms, the medicine for excellence for children. These powders will clear the system entirely of worms, will regulate and stimulate the organs injuriously affected by the worms, and will encourage healthy operation of the digestive processes. As a vermifuge it can be relied on for its effectiveness.

Before a man can wake up and find himself famous he must first wake up and find himself.

Would Cancel War Debts

President Beatty Of The C.P.R. Tells People Of U.S. That Canadian Government Would Bring Back Property

"It is not for me or any other citizen of the British Empire to discuss either publicly or privately the propriety or otherwise of war debt cancellation," E. W. Beatty, K.C., president of the Canadian Pacific Railway Company, said at a speech at Victoria, N.C. "But it is not surprising that men of great vision in the United States have reached the conclusion that if they were removed, industry would be stimulated, trade would expand and property would return."

The railway president was addressing a banquet of the eighth annual convention of the American Institute of Steel Construction. He surveyed the amity existing between the United States and Canada, outlined the importance of railroading to the two countries and spoke of business depression and the reason for that situation in Canada. The interruption to the marketing of Canadian grain, the direct and indirect results of the stock market collapse of last fall and the somewhat unsatisfactory present conditions respecting the newsprint industry, were the principal contributing causes to Canada's present depression, Mr. Beatty felt.

The United States Mr. Beatty said, had reached a population of 75,000,000 before its export business equalled the amount of that of Canada in 1927. "It speaks well for a country's progress when with less than 170,000,000 people it can produce this result," he said.

Alberta Gas Contains Very Little Helium

Report States Extraction Is Not Considered Economically Feasible

Alberta gas contains an element of helium but evidently not of such quantity as would make its extraction economically feasible, it has been stated at the Interior Department.

About 1917, during the war, some interesting experiments were conducted at Calgary by Prof. J. C. McLennan, of Toronto University. It was found that whereas, in the Texas gas, there is a content of 3 per cent. helium, the Alberta content did not exceed a third of that figure. No commercial helium was extracted at all. The problem was one of economic feasibility, and as stated this was not demonstrated. Soon afterwards the war closed and the experiments ceased though the results were made available to the research council, and to some extent the possible developments are still being explored.

Uses Of Volcanic Dust

Volcanic dust is mainly used in the manufacture of cleaners, scouring powders, and abrasive soaps, but lately, outside Canada, there has been an increasing demand for its use as an admixture in cement and plasters. Volcanic dust, beds up to thirty feet thick are being worked near Swift Current, Saskatchewan. There are other beds in British Columbia.

Should Be Satisfied

A fussy old woman inquired of a black porter the time of the train to Chicago. She then went to a white man and asked him. The negro went to the white man afterwards, and said with a smile, "Pardon me, but I believe it now she has got it in black and white."

The finest diamonds come from the neighborhood of fresh-water rivers.

Dairy Production Increases

Increasing Demand For Dairy Stock In The Prairie Provinces

"Statistics of dairy production at the present time indicate that there is an appreciable increase in milk and cream production all over Canada at the present time," observes Dr. J. A. Ruskick, Dairy Commissioner of the Dominion Department of Agriculture. With respect to butter production Ontario and Alberta show a 15 per cent. increase for the first six months of the production year. Cheese production, of which 97 per cent. is centered in Ontario and Quebec, was 30,000 boxes behind last year at the close of 11. One of the interesting features in the dairy industry at the present time is the increasing demand for dairy stock in the Prairie Provinces.

Two Sections In Grain Show

Growers should bear in mind that there are really two sections in the wheat classes of the World's Grain Show, Regina, in 1932. One section of five classes, calls for an exhibit of fifty pounds, the other for an exhibit of ten bushels. The smaller exhibit will, of course, admit of much more careful selection than will the larger. The ten-bushel sample may be prepared with cleaning machine, but this should be done very thoroughly.

Felt Tired Out All Day

Could Not Sleep at Night

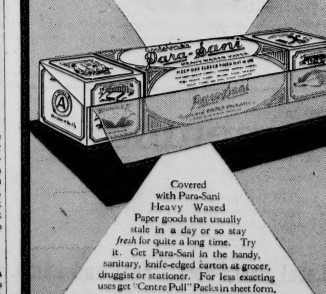

Mrs. Adamson Laidlaw, 2481 St. James St., Montreal, Que., writes:—"After a spell of the Grippe I was left very nervous, and felt drowsy and tired out all day, and could not sleep at night. I was taking four or five pills and did not feel at all like working. I was told about Miller's Heart and Nerve Pills and after taking four or five I was completely relieved of my trouble, and can recommend your pills."

Let these 6 vital Salts rid you of PIMPLES

Would you like quickly to free yourself of those hideous pimples—those unsightly blackheads—and have that smooth and soft skin which you've always craved?

Is your skin so itching and itching and itchy as to make you wince and wince at a summer's end?

Would you like to enjoy glorious health with plenty of energy and power a plenty of energy?

Then take a quarter teaspoonful of Kruschen Salts in a glass of water every morning before breakfast!

Kruschen is a combination of the six vital salts which your nerves, glands and body organs need daily to receive from food if they're to function correctly and which are impossible to obtain in these days of modern cooking.

Kruschen quickly cleans your blood of those harmful acids which cause your skin to erupt—you'll possess a skin like velvet, and a health perfection you didn't think possible!

WORLD HAPPENINGS BRIEFLY TOLD

Sir James M. Barrie has been installed as chancellor of Edinburgh University, his alma mater, in succession to the late Sir James Clerk Maxwell.

Dr. Frank B. Jewett, president of the Bell Telephone Laboratories says plans are being made to lay telephone cable under the Atlantic from Newfoundland to Ireland.

The French Government has decided to erect a stone memorial to the victims of the Brest-Litzovsk 1910, on the field where the dirigible met disaster.

Though lower in value, Canada's catch of sea fish and shell fish for the first nine months of this year was larger in volume than for the same period of 1920.

The Nobel prize in medicine for 1930 was awarded to Dr. Karl Landsteiner, of New York, connected with the Rockefeller Institute of Medical Research.

Death of William Kingsford-Smith, father of Charles Kingsford-Smith, conqueror of both the Pacific and Atlantic oceans, was announced Nov. 2, at Sydney, New South Wales.

Canada and Australia were declared to be the two countries in the British Empire showing the most notable advance in aviation by C. R. F. in his first lecture as President of the Royal Aeronautical Society.

Canada's seventh annual national flower show was held at Montreal recently. The exhibition was the largest of its kind ever held in Canada, with entries in the 125 sections all filled.

A new world record of 357 eggs in 365 days was made by white leghorn pullet number five in the test at Agassiz, B.C., under trapping rules. The eggs averaged more than 26 ounces to the dozen.

Correspondence Course

Saskatchewan Plan Wins Enthusiastic Approval In Rural Sections

The correspondence course by which the Saskatchewan Department of Education has made high school instruction available to all students in the province unable to take advantage of ordinary high school facilities, has apparently won the enthusiastic approval of parents, students and teachers in rural parts of the province. Already a total of 461 pupils have been enrolled, while 1,200 application forms have been sent out in response to requests.

Paper Plants Keep Busy

The Westminster Paper Company at New Westminster is operating its plant 24 hours a day with a staff of 100 men in order to keep up with its orders. The plant, in addition to a large domestic trade in producing paper products for Australia, New Zealand, China, Japan, West India, South America and South Africa.

Parallels Drawn In Two Tragic Deaths

Thomson Perished With R-101, Huskisson Killed By First Train

A curious parallel is being spoken of in London between the death of Lord Thomson, Air Minister, who perished in the R-101 disaster, and that of the last Chartist minister to be killed in an accident, William Huskisson, who met death almost exactly 100 years ago.

Huskisson, who was president of the Board of Trade, was knocked over by a train when he was attending in his official capacity the opening of the first British railway, the Manchester and Liverpool line.

His death caused a great outcry at the time against the new means of transportation.

The moral does not need to be pointed out, British observers say.

Competition To Be Held In
Connection With World's Grain
Show At Regina

Official notification has been received from the Italian Government, that Italy will be represented at the World's Grain Exhibition and Conference to be held at Regina, July 25 to August 6, 1932. That Italy will be represented at the event. The acceptance of Italy makes the ninth country to accept the invitation to be represented at the World's Grain Exhibition and Conference. The other eight countries are: New Zealand, Belgium, Netherlands, Czechoslovakia, Peru, Yugoslavia, Poland and Guatemala.

Preparations for the Exhibition and Conference at which over \$200,000 will be awarded in cash prizes are proceeding apace. The management is offering a prize of \$500 for the best slogan, the conditions governing the award of this prize being outlined as follows:

Over Sixteen Million Dollars Invested In Fur Bearing Animals

Fur farming in Canada is now established as a leading industry. The latest available figures show that the industry today represents a capital investment of \$22,980,617, of which \$10,401,423 is invested in fur-bearing animals.

Ten years ago the total value of fur-bearing animals on fur farms in Canada was placed at \$4,723,106. The industry today represents a capital investment of practically four times as much as in 1920. The silver fox heads the investment list with a capital investment of \$10,402,378—an increase of \$10,400,000 over 1920. The next from the standpoint of investment value is the muskrat, which now represents an investment of about \$600,000. With a capital investment of \$23,928 the mink comes next. This is an increase of 50 per cent over the preceding year and of \$324,153 over 1920. The other, coyote, silver blue fox and beaver are other newcomers to the fur industry.

Recipes For This Week
(By Betty Barclay)

COFFEE FRUIT CAKE
½ cup shortening.
1 cup light brown sugar.
2 eggs.
1 cup coffee.
½ cup milk.
1½ cups flour.

3 teaspoons baking powder.
½ pound raisins.
¼ pound citron.
1 pound butter in strips.

Cream shortening, add sugar, egg yolks, coffee and milk. Sift together flour and baking powder and add slowly. Add fruit which has been slightly frozen, and fold in beaten whites of eggs. Bake in greased loaf pan from one hour to one hour and a quarter.

PINEAPPLE MEAT LOAF
Mix thoroughly ½ lb. chopped pork, ½ lb. chopped beef, 1 cup drained crushed canned pineapple, 3 cups rolled cracker crumbs. Break in 1 egg. Work in 3 teaspoons salt and ½ teaspoon pepper. Pack into a bread pan and bake 45 minutes in a moderate oven (400 degrees Fahrenheit). Serve hot or cold.

Douglas' Egyptian Uniment should be used on the face and neck at once, cauterized wounds and prevent their healing. It is a powerful anti-inflammatory and proud flesh.

An Author's Opinion
Hugh Walpole Chooses Six Books
The author declared himself unworthy to receive so great a Guest under his roof.

Hugh Walpole the novelist, said in a speech at King's College, London, that there were only six books in the world worth being called literature. He listed them as follows: "War and Peace," by Tolstoy; "The Illiad," Homer; the first volume of "Keats' Poetry"; "Arabia Deserta," Doughty; "Canterbury Tales," Chaucer.

"As widely divergent as can be," was Mr. Walpole's comment on his selection.

Add Thrill To Sport
Shi Kinner Can Fly With New German Invention

Some of the thrills of flying are added to the winter sport of skiing with a pair of wings worn by the ski runner. The wings made of aluminum by a German inventor, are nineteen feet from tip to tip and enable the wearer to take short flights in the air after gaining sufficient momentum on the skis. They are so constructed that the ski rider is virtually seated in the centre of them when he leaves the ground.

Available from a horizontal position and easily controlled, enabling the rider to change direction of flight.

Telephone Link With Australia
Regular Commercial Telephone Service Is Instituted

The American Telephone and Telegraph Company has announced it will inaugurate regular commercial telephone service between North America and Australia at once.

The new circuit, the longest ever established for regular commercial telephony, consists principally of two radio links, one across the Atlantic and the other between England and Australia. With the wire links involved, the circuit between New York and Sydney is more than 14,600 miles long.

Ten persons were killed every day on French roads last year.

ACID CONDITION

the common cause of pain and discomfort after eating --

GET RID of your dread of pain after eating. Eat without fear of "indigestion," sour stomach, disagreeable eructations or heartburn.

When your food ferments, "disagree," lies like a lump in your stomach, it's a sign of too much acid. You need not resort to crude methods—disagreeable or harsh—like soda or alkali to get rid of the acid which will correct the condition. Phillips' Milk of Magnesia.

A spoonful of this pleasant-tasting, soothing fluid neutralizes any excess volume of acid. It restores the proper alkaline balance to an acid-soaked stomach and bowels—salts these organs to function as they should.

Phillips' Milk of Magnesia is what you need when a bad breath, coated tongue, headache, nausea or biliousness indicates an over-acid condition. Take a spoonful today and for several days and see how it sweetens the system. You won't be nearly so liable to colds or sickness. All drug-stores in 50c bottles.

Phillips' Milk of Magnesia is what you need when a bad breath, coated tongue, headache, nausea or biliousness indicates an over-acid condition. SUNDAY SCHOOL LESSON
NOVEMBER 16
THE BELIEVING CENTURION—A GENTLE WHOSE FAITH JESUS COMMENDED

Golden Text: "And they shall come from the east and west, and sit down with him at the kingdom of God."—Luke 13:29.

Lesson: Matthew 8:5-13.
Devotional Reading: Isaiah 60:1-9.

Explanations and Comments
The Centurion's Faith, verses 5-7.—One day, as Jesus entered Capernaum, a centurion came to him, saying, "My servant is sick."

A centurion was an officer in charge of a century, a company of from fifty to one hundred men. In this case, the part of a legion. This centurion was a Gentile, possibly a proselyte, who had built a synagogue for the Jews at Capernaum (Luke 7:5). He came to Jesus and told Him that his servant, who was dear to him, lay at home sick of the palsy, grievously tormented.

"Some diseases then classed as paralysis produce violent pain," we are told. "It would have been in accord with the general teaching of the Bible that a day in which the servant was a slave without civil rights, liable to be sold at the caprice of a brutal master, the centurion declared himself unworthy to receive so great a Guest under his roof."

"The servant shall be healed," he said. "Then he illustrated the power of faith by saying, 'I have not found so perfect a person.' For I also am a man under the law, and I say to this one 'Go,' and he will come to me, and I will cure him; and to my servant. 'Do this,' and he doeth it. If he, a man under the law, could do this, how much more will I, who am not under the law, do this?"

"The Centurion's Reward," verse 13.—Turning to the centurion, Jesus then said, "Go thy way, as thou hast believed, so be it unto thee." Thy blessing shall be as great as thy belief, and the reward was sealed in that hour.

Succeed Development of Plants
To shelter them from chill and speed their development every plant on some English truck farms is being provided with a hot-house of its own. The hot-houses take the form either of forcing jars of soda glass or pyramid-shaped metal frames into which panes of glass are set.

The latter type is the more popular because the panes can be replaced if shattered. Each type provides the necessary ventilation through a hole at the top.

Weak After Operation
"I was very weak after an operation. My nerves were so bad I would sit down and cry and my husband would not go out and leave me alone. Now my nerves are much better, thanks to a booklet that was left under the door. Lydia E. Pinkham's Vegetable Compound surely put me on my feet."

Have taken eight bottles. My friends tell me I look fine. My sister has taken this medicine too.—Mrs. Annie Walton, 67 Stanley St., Kingston, Ontario.

Lydia E. Pinkham's Vegetable Compound
BLOOD IN THE VEINS

The Tinsman game, necessary part of the Great Slave Lake, contains the last known herds of musk-oxen on the Canadian mainland, is closed to all hunters, both natives and white men.

Blood in the average human body travels five times the nautical distance between New York and Manila in one year.

for ANY CHILD

WE can never be sure just what makes a child restless, but the remedy can always be the same. Good old Castoria. There's comfort in every drop of this pure vegetable preparation, and not the slightest harm in its frequent use. As often as your child has a fretful sleep, is feverish, or cries and can't sleep, let Castoria soothe him.

Sometimes constipation, or diarrhea—conditions that should always be checked without delay. Just keep Castoria handy and give promptly. Your child will follow your promptness; if it doesn't, you should call a physician.

EXPENDITURES FOR RELIEF ARE GIVEN APPROVAL

Ottawa, Ont.—Expenditures totaling more than \$37,000,000 for public works and undertakings throughout the Dominion to relieve unemployment have been given final approval. Announcement to this effect was made by Hon. Glendon D. Robertson, Minister of Labor.

Work proposals put forward by various municipalities and provinces, which the Dominion Government has endorsed, aggregate approximately \$14,000,000. A number of these undertakings are already under way. Construction and improvement programs for the Canadian Pacific and Canadian National Railways total \$22,000,000. Expenditures through the grade crossing fund is authorized to the amount of \$100,000.

Expenditures approved for the different provinces are as follows:

Ontario	\$10,000,000
British Columbia	1,657,850
Saskatchewan	1,292,600
New Brunswick	400,300
Manitoba	254,975
Prince Edward Island	100,000
New Scotia	100,000
Yukon	100,000
C. P. R.	11,514,000
C. N. R. (Approx.)	11,150,000
Grade Crossing Fund	100,000
Total	\$37,728,842

Proposed works and undertakings for Quebec and Alberta, with estimated expenditures, are expected to be received from these provinces and their municipalities shortly, Senator Robertson declared.

Upon their receipt they will be placed before cabinet and given approval as has been done in the case of other provinces. Other proposed expenditures in Ontario, British Columbia, Saskatchewan, New Brunswick, Manitoba, Prince Edward Island, Nova Scotia and the Yukon Territory will be submitted to the committee for Dominion approval, and an announcement of these undertakings will follow.

The prime minister's promise to the Canadian people that prompt action to relieve unemployment would follow the general election in July last has been implemented since Mr. Bennett took office on August 7. Senator Robertson declared. After a survey of unemployment in this regard to date, the minister expressed warm appreciation of the manner in which all interested parties have co-operated in hastening the creation of employment opportunities as rapidly as could reasonably be expected.

"Steps are being taken," Senator Robertson stated, "to encourage employers to make use of the employment service offices so that unemployed workmen registered therein may be promptly made available for and acquainted with work going forward. A complete list of localities and extent of expenditures for relief works throughout in every part of Canada will be given to the press from time to time so that the public and particularly unemployed men will have knowledge of the work and opportunities may be found. In every agreement with every province and the Federal Government's favorable and eight-hour-day policies have been inserted, so that exploitation of labor through working unnecessarily long hours is prevented and the maintenance of current reasonable rates are provided for."

Wheat Shows High Protein
Calgary, Alberta.—The earlier threshed grain from the southern part of Alberta showed remarkably high protein, according to tests made from many points, it is reported by the Alberta Wheat Pool. Samples for 17-week tests were taken from a number of points, showed a protein content of 19 per cent, while many other points supplied samples of wheat which tested from 15 to 18 per cent.

Pays Tribute To Grenfell
London, England.—The Prince of Wales paid a tribute to the work of Sir Wilfred Grenfell in a letter which was read by the Lord Mayor of London recently at a meeting of the Grenfell Association. The letter read: "There is no doubt that Sir Wilfred is carrying on splendid work in a territory rapidly becoming an economic unit of great potential value to Newfoundland and the Empire."

Manitoba Birds For Eastern Show
Brandon, Man.—A poultry exhibit of considerable size will be sent to the Toronto Royal Show this month by the province of Manitoba. John Windows of the city stated that more than 50 birds will be shipped east and that turkeys will comprise a large portion of the exhibit.

W. N. U. 1863

Freemen Of City Of London

Prime Ministers Of Canada, Australia and New Zealand Are Honored

London, England.—In the old Guildhall, with its five centuries of stirring history, the Prime Ministers of Canada, Australia and New Zealand have been freemen of the City of London. Premiers R. B. Bennett, J. H. Scullin, and G. W. Forbes, were declared in the ancient formula to be "men of good name and fame."

"They do not desire the freedom of the city whereby they will defraud the King or this city of any of its rights, customs, and privileges," so ran the declaration of the corporators, "they will pay their scot, bear their toll, and so they say."

Sir Adrian Pollock, city chamberlain, introduced the new freemen. He said Premier R. B. Bennett "has not belied his reputation for plain speaking and anxiety to get things done, which admirable attributes are the more conspicuous on account of his well-known hereditary and passionate loyalty to the empire."

Premier Bennett declared he felt the honor of freemanhood not upon himself personally, but as an honor to the Dominion of Canada. "I shall tell my fellow-countrymen when I return of the high regard you hold for them in this old city and of the deep concern ever manifested by the Dominion government for the progress and prosperity," Premier Bennett said.

Premier Bennett referred to the Imperial Conference, the first great conference in which we are engaged," he continued, "I can only say that every delegate, whether from the Dominion or the overseas dominions, is actuated by an earnest desire to promote the well-being and prosperity of this great empire, the commonwealth of nations of which we are trustees."

Not Exempt From Taxation

C.N.R. Pays Over Eighteen Million In Three Years

Toronto, Ont.—Replying to the statement that the Canadian National Railway had been exempt from taxation, Sir Henry Thornton, chairman and president of the system, told members of the Toronto Board of Trade Club, that from 1926 to 1929 the railway had paid in federal, provincial and municipal taxes \$18,700,000. This amount, he said, was only \$3,000,000 less than paid out by the Canadian Pacific Railway.

The \$3,000,000 less can be explained by the fact that Maritime railways are under a different arrangement.

Carried Out Father's Wish

Kingsford-Smith Scatters Ashes Of His Father Over Waters Of Pacific

Sydney, N.S.W.—Wing Commander Charles Kingsford-Smith, using the aeroplane in which he made his last memorable flight from England to Australia, scattered the ashes of his father over the waters of the Pacific Ocean, which had witnessed his first notable triumph in the air.

On his death bed, William Kingsford-Smith, the aviator, expressed a wish that his ashes be cast to the winds over the Pacific, and his duty to his dead sire. The elder Kingsford-Smith died November 2.

Shock Causes Death

Southsea, England.—Major David Thomson, 68, only brother of Lord Thomson, the air minister who lost his life in the R-101 disaster, died November 2. Physicians attributed his death to shock as a result of the tragedy.

May Visit French Capital

London, England.—Premier R. B. Bennett, of Canada, will probably visit Paris, after the Imperial Conference has concluded, to discuss trade matters with the French government.

Wheat Expert

Dr. Hugo Eckener Will Use Helium Gas and Crude Oil Motors In New Zeppelin

Berlin, Germany.—Dr. Hugo Eckener surprised the annual dinner of the American Chamber of Commerce in New York by announcing that as a result of the recent disaster to the British dirigible R-101 he had changed the plans for Zeppelin now under construction so as to provide for helium gas and crude oil motors.

He said he had received word from the United States that helium gas, which is non-inflammable and non-explosive, would be available to inflate his airships in whatever quantities desired.

Dr. Eckener, who is world famous as commander of the Graf Zeppelin, declared that it had not been for an explosion the crash of the R-101 in France several weeks ago would have resulted in minimum damage. As it was the great airship burned to almost nothing and 48 British lives were lost.

DR. W. W. SWANSON

Professor of Economics, University of Saskatchewan, Saskatoon, who is at present in London with the Canadian delegation attending the Imperial Economic Conference. An outstanding authority on wheat, Professor Swanson is pursuing the difficult problems involved in the marketing of Canada's crops, concerning which so many dispatches have been sent to Canadian newspapers.

For Improved Motor Cars

Increase In Speed, Control, Safety and Cheapsness Is Predicted

London, England.—Motor cars of the future will have fewer parts—hundreds of fewer parts—while taxis and buses may have their engines at the rear, according to a prediction made here recently by Sir Herbert Austin, prominent manufacturer and chairman of the Institution of Automobile Engineers. He added that all transport would increase in speed, control, safety and cheapness.

"Why we put up with the present archaic type of vehicle in London streets," he said, "is because it is difficult to understand." The weight of road vehicles could be reduced with advantage, Sir Herbert declared, and a design was wanted for a 19 horse power closed car to weigh not more than 14 hundred weight.

Investigate Indian Conditions

Minister Of The Interior To Study Situation In The West

Ottawa, Ont.—In order to examine at first hand conditions on Indian reserves in the prairie provinces, Hon. T. G. Murphy, Minister of Interior and Indian Affairs, will journey to the west this end of the week. While the minister's plans have not been completed, visits are contemplated to a number of reserves in the neighborhood of Regina, Sask., and Calgary, Alberta.

Franco-Italian

Naval Difference

United States Ambassador Is Optimistic After Conference With Italy

Rome, Italy.—Hugh S. Gibson, United States ambassador to Belgium, has returned to Geneva apparently optimistic after a series of conferences with Italian government heads looking toward a settlement of the Franco-Italian naval difference. He did not talk for publication about his conversations with Premier Mussolini and Foreign Minister Grandi, but he left behind an impression that negotiations between France and Italy will be undertaken at the League of Nations preparatory disarmament commission sessions with some likelihood of success than would have been the case before his visit to Rome.

BOUND FOR EASTERN TRADE

Two Trucks of Shortbread and More coming up to complete the carload which left Winnipeg for Toronto's Christmas trade. It required 645 cases, 12,900 toothsome cakes, to fill the car bound for the western manufactured product bound for eastern trade—a special order completed this month.

MIGHT WEAKEN ONE OF THE FEW LINKS OF EMPIRE

London, England.—The Times recently discussed appointment of governors-general, one of the matters which has received consideration of the Imperial Conference, and concluded that one of the few remaining formal links binding the Empire would be severed or at least weakened, if governors-general were to become merely nominees of the reigning governments in the dominions.

"It is not easy to see how such a nominee could adequately discharge the function of the office as set forth in the report of the 1926 Imperial Conference," the Times said. "Nothing could be more erroneous than to suppose that in some dominions that the governor-general is merely a lay figure. If the governor-general is to represent His Majesty adequately, then His Majesty's part in the appointment must be real and not merely nominal. This is all the more necessary since the governor-general is now exclusively the representative of the monarch."

"At the same time it does not follow that a dominion government would surrender the voice in selection of his officers for a good many years."

Concerning the discussion on whether a governor-general should be a citizen of the dominion in which he holds highest office, the Times said that the governor-general should be a citizen of the dominion in which he holds highest office, the Times said that the governor-general should be a citizen of the dominion in which he holds highest office, the Times said that the governor-general should be a citizen of the dominion in which he holds highest office.

But other things being equal, a governor-general would find it easier to discharge his duties if he came from another part of the Empire, free from local associations and prepossessions. The whole matter, concluded the Times, is one for informal consultation and general agreement, not for any pedantic formula.

Grade Crossing Fund

Half a Million Dollars Are Appropriated For This Purpose

Ottawa, Ont.—Transfer of \$500,000 from the government unemployment fund to the grade crossing fund has been authorized by order-in-council. The latter fund is administered by the Railway Commission. The transfer is made by the government with a view to its use in projects for establishment of necessary grade separations at a time when employment is urgently needed.

Earnings Ford Millions Less

C.N.R. Has Deficit This Year Of Ten Millions

Toronto, Ont.—Gross earnings of the Canadian National Railways system last year were \$40,000,000 less than in 1929, but drastic economies in all departments of operation and capital expenditure will offset this to the extent of about \$30,000,000, it was revealed here by Sir Henry Thornton, president of the system.

The large savings effected, he indicated, were largely achieved by putting off construction work and other operations not immediately essential.

While no improvement or indication of immediate improvement in C.N.R. earnings was visible, Sir Henry was encouraged at what he thought was a "better feeling" by most people and business men. The extreme and unwarranted pessimism induced by the depression, he thought, was passing rapidly, which was a good sign.

NATIONAL FARM POLICY MAY NOW BE FORMULATED

Ottawa, Ont.—New departures in Canadian methods of agriculture are expected to develop from a conference to be held here November 17 and 18 between Hon. Robert Weir, Minister of Agriculture, and Ministers of Agriculture of the various provinces.

The conference has been called in the hope of formulating a national agricultural policy. Not only will the views of the provincial ministers be presented at the conference, but suggestions from the various agricultural colleges will also be put forward. Major Weir has already been in communication with deans of colleges throughout Canada, inviting them to express their opinions.

The discouragement suffered by farmers in attempting to market their crops at reasonable prices has convinced the minister in his determination to evolve an effective national agricultural policy, according to department officials.

While the conference is not the most crucial phases of the problem are present in the western provinces, the minister will not concentrate on the wheat situation alone. It is understood, but will endeavor to bring forth a policy of benefit to the country as a whole.

Major Weir has not made an expression of his own views, but is believed to favor a gradual increase in cattle-raising in the western provinces.

Alberta Cattle For Britain

Second Consignment Has Been Shipped From Calgary To Manchester, England

Calgary, Alberta.—A shipment of two, three and four-year-old steers, numbering 200 head, have been shipped from Montreal, from which port they are billed for Manchester, England. The consignment, second of its kind to leave the west during the past few weeks, was collected and is being shipped under supervision of the Dominion Department of Agriculture. It will serve to further prove the possibilities of the British market for western farmers.

Section Foreman Awarded Prize

Winnipeg, Man.—R. B. Swanson, section foreman in charge of one of the British Columbia boundary subdivisions at Ebbot, B.C., has been awarded the prize donated by W. M. Neal, Winnipeg, general manager western lines Canadian Pacific Railway, for the best maintained section of track on the company's western lines during 1930.

Shanghai, China, plans to spend nearly \$1,000,000 on new municipal buildings.

Thursday, Nov. 13, 1930 No. 47

The man who idles away his youth and early manhood pays the penalty of lost opportunity in after life.

The Philo Baby Grand
The first REAL, fine-performing, full-toned screen grid radio receiver ever offered at such a price. Handsome Gothic design; genuine walnut; 7 tubes (3 screen grid) genuine Electro Dynamic speaker built in; double-tuned input circuit; push-pull; all-electric; 16 in. wide; 17 inches high. This attractive little cabinet encloses a big-performing and marvelously engineered receiver with a wealth of fine tone, selectivity and power. Full-toned radio performance in small space. Price complete with Tubes \$90.00. See these machines.

"Good Equipment Makes a Good Farmer Better."

We saw Otto Hagg nursing a stiff neck after the moose hunt. We couldn't say if he got kicked by one or not.

"Bill is a great golfer, isn't he?"
"He has to be; he isn't a good liar."

Of all the moose stories that are going around these days, we believe that when L. Warren, J. Pharis and A. Hopkins emptied their guns on a big one at 80 ft. distance takes the cake. Oscar Hagg says he heard it was crippled all right. It didn't say a blind chiselman couldn't help but kill it.

Lecturer: I have found wild tigers, raging with terrible lions and voice from the audience. Come on home with me and help me face my wife!

But we can't overlook Siler running down the biggest one brought in on foot—this could hardly pass without notice.

You used to call me Sweetheart before we were married, but now you don't call me anything.

You That shows my self control.

Atwater Kent Radio. There's none better.

Spike: Say, did you hear about the new fare I found on the street car?

Mike: Naw! What about them?

Spike: Transfers!

Student (commending) Handset certainly was a great date.

Romance: Well, I never knew that Shakespeare wrote about dogs before.

NOTICE

To whom it may concern—W. J. Scott will not be responsible for any debts contracted by his wife, Mrs. Ruby Scott, as she has left his bed and board.

IN THE ESTATE OF RANSOM M. COLE, late of Long Beach, California, deceased.

NOTICE is hereby given that all persons having claims upon the Estate of the above named RANSOM M. COLE, who died on the 4th day of July 1930, are required to file with the firm of McLAWS REIDMAN LOUGHEED & CAIRNS, Solicitors for Margaret J. Cole, the Administratrix, with Will Annexed of the Estate of the said Ransom M. Cole, by the 28th day of December A.D. 1930, a full statement duly verified of their claims and of any securities held by them and after that date the said Administratrix will distribute the assets of the said deceased among the parties entitled thereto having regard only to the claims of which notice has been so filed or which have been brought to her notice.

Dated this 5th day of November A.D. 1930.
McLAWS REIDMAN LOUGHEED & CAIRNS,
Solicitors for Margaret J. Cole.

SEALED TENDERS addressed to the undersigned and marked "Tender for Public Building, Drumheller, Alberta," will be received until 12 o'clock noon, Thursday, November 14, 1930, for the construction of a public building at Drumheller, Alberta. The lowest tender will be accepted on the condition that the tenderer shall be bound to execute the work within the time specified in the tender and to accept the award of the tender.

Each tender must be accompanied by an approved cheque or a certified bank cheque payable to the order of the Minister of Public Works, amounting to 10 per cent of the amount of the tender. The cheque or bank cheque must be deposited with the tender and the tenderer must be prepared to furnish a cheque if required to make up an odd amount.

NOTE.—Blue prints can be obtained at the office of the Chief Architect, Department of Public Works, Ottawa, or by depositing an accepted bank cheque for the sum of fifty cents payable to the order of the Minister of Public Works.

By order,
J. DESJARDINS,
Secretary,
Department of Public Works,
Ottawa, October 30, 1930.

2:15 p.m.—Song Service.
7:30 Evening Worship. Subject—"Casting All Upon God"

Anthem—"God will take care of you."

All are welcome.

Found—Ladies' glove. Apply at Chronicle office.

Sensational Scenes! Thunderous Thrills! Glamorous Romance! Society calls him "coward." His sweetheart and his three comrades give him each a white feather—symbols of his shameful disgrace. But he will show them the stuff he is made of! See "The Four Feathers."
